Answer Sheet

Notes: Number track

6 to 8

Solution

13	11	9	7
15	17	3	5
21	19	1 start	47
23	33	35	45
25	31	37	43
27	29	39	41

Extensions

You could:

- 1 change the numbers on this track to even numbers, making each number one less;
- 2 make the track so children must count back in twos from, say, 50 or 49;
- 3 use counting numbers, starting with 86 and ending with 109, or vice versa;
- 4 use multiples of 5 from 5 to 120;
- 5 design different tracks on, say, a 5×5 grid.

Recognise odd numbers
Make predictions and continue a number sequence
