## Answer Sheet

### Notes: Pets

9 to 11

#### Solution

child	pet	pet's name
Jane	dog	Daisy
Ram	cat	Whiskers
Parveen	tortoise	Rosie
Peter	rabbit	Zaza

#### Notes

Peter's rabbit is not called Rosie, not Whiskers (the cat), and not Daisy (who belongs to Jane).  
So Peter's rabbit is called Zaza.

Since Whiskers the cat does not belong to Parveen, it must belong to Ram.

Daisy must be a dog, since she is not a tortoise.

The tortoise must therefore be called Rosie.
