Name: _____

Bike rides

Jo and Chris set out together.

They rode their bikes from A to B, from B to C, and from the C back to A.

Jo rode at a constant speed all the way.

Chris rode from A to B at double Jo's speed.

She rode from B to C at the same speed as Jo.

She rode from C back to A at half Jo's speed.

Who got back to A first?

How far ahead was she?
